WORK EXPERIENCE

JPMorgan Chase & Co   2022 - Present
Vice President – CCB Risk Product Delivery   *Wilmington, DE, USA*

- Led product discovery and roadmap development for the Risk Decisions team, driving innovations in credit risk decisioning for auto loan and credit card offerings.
- Managed cross-functional teams, translating complex business strategies into actionable technical deliverables, defining key trade-offs, and fostering strong stakeholder relationships to ensure product alignment and success.
- Coordinated production deployment schedules, proactively addressing post-implementation issues, delivering effective resolutions to maintain system stability and customer satisfaction.

Accenture   2018 - 2021
Senior Analyst (Application Development) - Amadeus AO   *Bengaluru, India*

- Led the billing team of a European travel platform Amadeus for ETL, analytics and reporting of payments. Worked with France and Spain offices to build application platform to analyze and process complex sales datasets.
- Designed OKRs and developed predictive models in Python to forecast the future client transactions and identify KPIs. Deployed the insights using Tableau dashboards.

Infosys Limited   2014 - 2018
Senior Systems Engineer/ Analyst - Volvo Cars   *Bengaluru, India*

- Managed end-to-end project development for global sales and accounting program, translating complex business requirements into actionable solutions for a leading automotive vendor.
- Developed a comprehensive roadmap and built a robust data pipeline for SAP warehouse transaction management, collaborating with cross-functional teams to ensure seamless execution and data integrity.

Poolka Technologies   2012 - 2014
Cofounder   *Bengaluru, India*

- Designed the product vision, strategy and collaborated with engineering teams to build Fairi, a fashion assistant chatbot that provides fashion recommendations based on social media trends.
